down to hot-headed patriotic enchusiasm,
aided by falsification of war reports by
the Government through a subservient

been sent to Coren by the Viceroy of
China, reported that the Japa had won
declisive victories on land, and that they
had sunk in the naval battle, four of
China's nine ships, so that, although
they had not won a real victory, they
had prantically gained the supremacy on
the sea, that he was returning in diagust
to give the Viceroy a piece of his mind,
and that he had almost no doubt that
the Japanese army would succeed in
resching the Chinese capital. All of

Charges Made by Municipal League Against Boston's Committee on Claims

Against Boston's Committee on Claims
Boston, Nov 16 In common council last night the report of the joint special committee on docks and wharves recommending the passage of an order authorizing the Mayor to petition the general court for the establishment of a modern dock system under public/ownership, was adopted 47 to 1

The Municipal League was hauled over the coals in the common council last night. The subject was involuced by an order offered by Councilman Morris requesting the Mayor to appoint a committee to investigate and report on the truthfulness of the charges jurinat the Committee on Claims made at a recent meeting of the Municipal League and as set forth in an account of the said meeting published in the Boston daily papers of November 1, last. In introducing the order Mr. Norris denounced the action of the Municipal League in bringing unfounded charges againet the city council's Committee on Claims, through its Secretary, Mr. Rutan. Mr. Norris had a suggestion to make. He wanted those charges investigated, and on top of that he thought it might be an excellent idea to have the investigation conducted by the very persons who have mide an investigation desirable. Without stopping over many details of the report that invites criticism; we will direct attention to two vital points in which it seems to us to be both mistaken and mischevous. One is the expression of the conviction that, at the very crisis of our civil war least summer, the Fullmen Company and the General Managers' Association, the complision says that it will impressed with the belief, by the evidence and the attendant circumstances as disclosed, that a different policy would have prevented the loss of life and great loss of property and wages occasioned by the strike."

The narative of events lending up to this conclusion is grossly inadequate and unfair—unconsciously so, an opoubt. All

the rioting and the plundering and burnt. Telephone Connection, lower and the plundering and burnt. Telephone Connection, lower and the plundering and burnt.

ling are left out; all the teriorium, extending over large septions of the country and affecting millions of citizens, with the need of calling out the traops, State and national, and the impression given that it was used an ordinary peaceful strike which the implecable Pullman and the hard-hearted managers refused to arbitrate. The report gravely recites the efforts of the "Cloic Federation" of Chicago, made up of "eminent citizens," to intervene, together with those of the Common Council and the mayor of the city, and notes with a pained air that the "afercentyped answer" was returned to them ali, as albot of Mayor Pingree, or Detroit, "himself a large manufacturer," though backed up by telegrams from fitty other mayors.

Not a word here about the shooting and train-wrocking and blockading, to the distress of threatened famine in many cities; not a word about the intense excitement throughout the whole country, and the general feeling that the existence of the government and of sopiety itself was at take, and that to give in to the strikers at that point or at any point would be a deadly blow to liberty and the rights of property—nothing of his, but only it estatement that the commander it has the commander as that the company and the managers should have given in.

This part of the report is only a trander of the restore of the "circum-

propercy and the commission is "timpressed with the belief" that the compressed with the belief" that the company and the managers should have given in.

This part of the report is only a travesty What account of the "circumsets" what account of the "circumsets" which was not so much a stake as a social conversion, can be complete if it leaves out the intense anxiety of the best cirizens less a fatal surrender of principle should be made? Much has been said about the disagreeable character of Mr Pallman and his hand and syramical ways, as of a little despot. We have nothing to say about all that, but we do affirm that there we e-hundreds of thousands of the best American citizens who rejoiced with great poy at that citizal moment that Mr Pallman was unyielding. I hay did not carr of he was disagreeable personally, or if his frames was mere stubboruness. He rould not be too mulish or abtrary for them or the occasion abtrary for them or the occasion abtrary for them or the occasion. Americans abroad anxionally scanned the fragmentary despatchs and prayed fervently that Mr Pallman would at any rate stand firm.

For he suffered all the agonizing tortures of dyspepsia. In the morning his cyes were dim and bloodshot, a horrible cyes were dim and bloodshot, a horrible nunsea was experienced, food was to him revolting and yet a gnowing craving for food pervaded his whole system. His heart palpitated violently after the least exertion. Hope had nearly left him when he read of the marvelous cures effected by Dr Pierce's Golden Medical Discopery. He hercled to the device enected by Dr Pierce's Golden Medical Discovery. He interied to the drug store, bought a bottle and the effects were so satisfactory that he now gnashes his teeth when he thinks of the agonies he might have prevented, had he used "G. M. D."

At a regular meeting of the Gonesee county (N. Y.) Medical Society, the physicians of the county passed a vote of thanks for a quantity of Glimore's Aromatic Wine which had been presented to the society, and said that they recognized the remedy as being adapted to a large class of diseases. Physicians everywhere recommend this excellent medicine, especially to their lady natients. Sold by C. Sweet, West Market Square. The Doctors Endorse it Square.
